

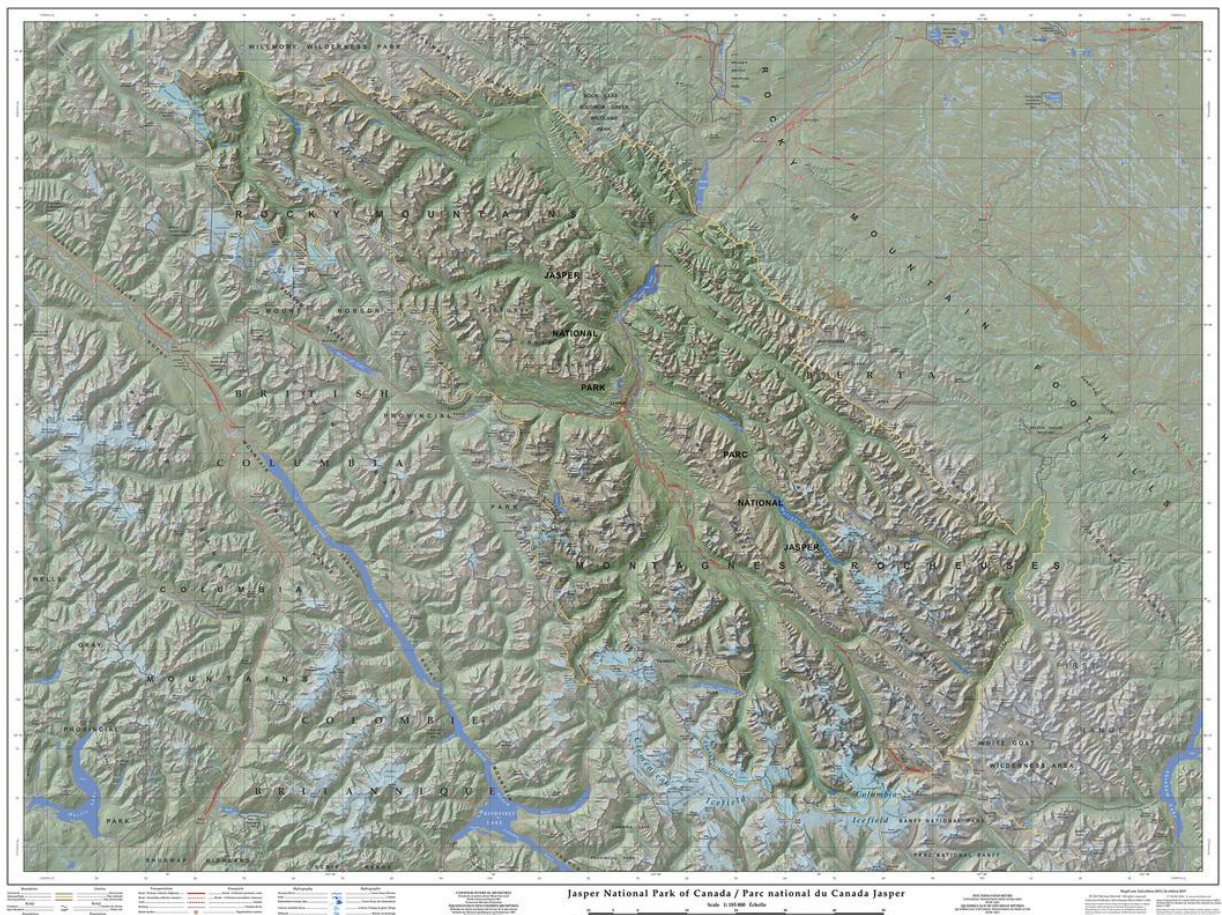

Mapping the Canadian Mountain National Park landscape

Michael Mitchell, MMcartographics, Jasper, AB, Canada

<http://mmcarto.ca>; mmcarto@telus.net

Michael's GIS and cartographic layout & design skills have developed over twenty years in the industry, including a number of years immersed in related academic settings, working with Parks Canada in Jasper National Park, and eight years as a private-sector GIS consultant, specialist, and cartographer. His employment with Parks Canada also includes sixteen years of seasonal employment with Parks Canada in the Jasper Backcountry Trail Office providing in-depth mountain wilderness travel and mountaineering consultation. He is currently employed by Parks Canada and the Municipality of Jasper providing municipal GIS, data management, and cartographic support and continues to work as a freelance cartographer.
